

Directions: Cut out each box and place it on the foldable in its appropriate place (**NOTE – it's in the same location on foldable as it is on this page).

If oxygen is present,
what type of respiration
occurs?

The next two stages
occur where?

What is the first stage
called?
What happens during this
stage & where does it occur?

What is the
2nd stage
called?

What is the
3rd stage
called?

If oxygen is NOT
present, what type of
respiration occurs?

What is
produced?

When oxygen is not present,
what pathway occurs?

What is
produced?

What is
produced?

How much ATP is
produced from 1
glucose molecule?
